## Raw Footage

This is in addition to the base package. As I am there all day there are parts of the day that just don't make the final cut like the speech the estranged uncle makes from you mums side or the parts of the ceremony that are not quite on point. Or parts that just aren't in focus. If you would like to have all this raw footage for a keepsake, please let me know. To have it transferred and saved to a hard drive (Most weddings can be 100gig to 200gig in file size). Raw Footage is not Perfect.

### What is included

- Footage encoded into High Quality mp4 format in HD (1080p)
- Provided on Hard drive (Included in Price).

Price - \$400 incl GST

Special Requests can be made but must be made prior to the day just to ensure it is achievable. Special Requests may result in additional cost.

I am more than happy to meet with you in person about your day for you to get a feel for me and the way I work.

I do ask that I can use some of your videos for self-promotion of Outa Media
